I finished my DAM diploma in 2026 and since 2024 I've been building complete applications, from backend to frontend. I did my internship at Capgemini working with Salesforce and I now automate processes part-time at Grupo Cobra. I'm looking for a Java backend or full stack role, in Asturias or remote, and I pick up whatever I need quickly.

Experience

2026 – present — **Moncobra (Grupo Cobra)** · Automation Developer *(part-time)*
I automate the company's internal processes with Python.

2026 – present — **Freelance** · Web Developer
I design and build websites for local businesses, such as judoastures.es.

2026 — **Capgemini** · Salesforce Developer *(internship, DAM work placement)*
Salesforce development with Apex, Lightning Web Components and Flows.

2025 — **Funiverse** · Frontend Web Developer *(internship)*
Built and maintained the company website.

2025 — **Introvisual** · Web Development & SEO *(internship)*
SEO and WordPress content.

Projects

2026 — **GestionBarber** · *DAM final project, in production*
React · TypeScript · FastAPI · MySQL · Docker
Online booking for a barbershop, with an admin panel and an Android app.

2025 — **VeoVeo** · *Android app*
Java · Android · Flask · SQLite
App to keep track of films and series, with its own API. github.com/LuisJardon/VeoVeoApp

2026 — **Radar** · *my own tool*
Python · FastAPI · DuckDB · Leaflet · Docker
Finds businesses with no website or a weak one and reviews their site.

2024 – 2026 — **Home server** · *Home Lab*
Linux · Docker · Caddy · WireGuard
Self-hosted server where I publish my portfolio and projects.
